 (N. 1095) 1960
 Conto corrente
 Utilizzo **1960**
 si effettua il versamento

STATO ATTUALE

PROGETTO

The image contains two architectural drawings. The left drawing is a site plan showing a building plot labeled '261 sub 3' in a pink box, situated between 'VIA CARRIONA' and 'TORRENTE CARRIONE'. The right drawing is a floor plan of the building, showing a staircase, a kitchen ('cucina'), a living room ('sala'), and a bedroom ('camera'). Dimensions of 5.00 and 1.50 are indicated at the bottom right of the floor plan.

TORRE DE CARRI

This is a black and white architectural line drawing of a building facade. The drawing depicts a complex arrangement of rectangular volumes and windows. On the left, there is a section with a balcony featuring a railing. To its right is a taller, more prominent rectangular volume with several windows of varying sizes. Below this, a smaller rectangular volume is attached. The drawing uses simple black lines on a light background to define the building's form and features.

TORRENTE CARRIOLA

This architectural drawing shows a section of a building facade. A central window unit, consisting of a small square window above three vertical rectangular windows, is highlighted with a thick red border. To the left of this unit is a balcony with a railing. To the right is a taller section of the building with several rectangular windows. The drawing is a line sketch with some areas shaded in light gray.

This architectural drawing shows a side elevation of a building. On the left, a vertical section of the facade is highlighted with a red rectangular border. This section contains two small, vertically aligned rectangular windows. To the right of this highlighted section, the main body of the building is shown. It features a larger rectangular window positioned higher up. The building's roofline is visible at the top, and a horizontal line at the bottom suggests the ground level. The drawing is a simple line sketch on a light-colored background.

An architectural line drawing of a building facade. The drawing is on a light-colored, textured paper. It shows a side elevation of a building with a sloped roof. A red rectangle is drawn around a small, rectangular opening (likely a door or a small window) on the left side of the facade. The building has a grid-like structure of windows or panels. The drawing is simple, using black lines for the structure and a red line for the highlighted area.
