NORME PER I DISEGNI

I disegni debbono essere firmati dal progettista e dal proprietario, piegati nelle dimensioni di cm. 21x31 e nella scala fissa 1:100 per l'insieme e di almeno 1:20 per i dettagli.

I disegni devono contenere tutte le **piante** dei vari piani, delle coperture e dei volumi tecnici, quando non siano identiche tra di loro; tutte le **facciate esterne**, nonché quelle **interne**, quando possono essere vedute in tutto od in parte dalla pubblica via o piazza; una **sezione trasversale notevole** fatta secondo un piano che più particolarmente manifesti il sistema di costruzione, una **planimetria generale con raggio di mt. 100** della località nel rapporto di 1:1000 oppure di 1:2000 (secondo la scala del foglio di mappa) ove siano identificate oltre alle costruzioni da eseguirsi anche quelle già esistenti, con la indicazione chiara dei limiti di proprietà, del N. di mappa del terreno che interessa e del N. del foglio ove è ubicata, degli spazi liberi circostanti, anche se di proprietà di terzi, e delle vie e piazze. Pianta 1:500 con posizione fabbricato e distanza dei confini.

I disegni debbono essere chiaramente **quotati**, specialmente:

- nelle piante per tutte le dimensioni dei fabbricati e spazi circostanti ivi comprese quote dei vari piani rispetto al piano stradale o di campagna oppure livello del mare.
- nelle sezioni per le altezze dei singoli piani da pavimento a pavimento, oltre alle altezze nette interne di ogni singolo piano.
